*Strawberry Plants*  
Rural Route 1

Dear Customer:

Due to drought conditions in our section of the country in 1953, during the Summer and Fall, our supply of Strawberry Plants is very short. However, they are large and thrifty, due to the fact that the rows are not nearly as thick with plants as in other years, because of the dry weather.

We are quoting only one variety by the thousand:

**GIANT ROBINSON at \$9.50 per M**

For our small individual Garden users, we are recommending the following Special — Post-Paid:
